International application No. PCT/GB 03/ 03064	International filing date (day/month/year) 15/07/2003	(Earliest) Priority Date (day/month/year) 26/07/2002
Applicant GOPAK LIMITED		

This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.

This International Search Report consists of a total of 4 sheets.

☒ It is also accompanied by a copy of each prior art document cited in this report.

1. Basis of the report

- a. With regard to the **language**, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.

☐ the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).

- b. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, the international search was carried out on the basis of the sequence listing :

☐ contained in the international application in written form.

☐ filed together with the international application in computer readable form.

☐ furnished subsequently to this Authority in written form.

☐ furnished subsequently to this Authority in computer readable form.

☐ the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.

☐ the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished

2. ☐ **Certain claims were found unsearchable** (See Box I).

3. ☐ **Unity of invention is lacking** (see Box II).

4. With regard to the **title**,

☒ the text is approved as submitted by the applicant.

☐ the text has been established by this Authority to read as follows:

5. With regard to the **abstract**,

☐ the text is approved as submitted by the applicant.

☒ the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.

6. The figure of the **drawings** to be published with the abstract is Figure No.

☒ as suggested by the applicant.

☐ because the applicant failed to suggest a figure.

☐ because this figure better characterizes the invention.

1
☐ None of the figures.

Box III TEXT OF THE ABSTRACT (Continuation of item 5 of the first sheet)

A sliding pivot means for a support element (9) which is used with a stanchion (2) which is hinged to the item (1) with which it is used and from which it can be unfolded, in which one end(5a)of the support element(5)is rigidly attached to the stanchion(2)and the opposite end is provided with a substantially transverse portion(7)extending therefrom, comprises a slide(9), a sleeve(10) provided with a slide pin(11) extending in substantially the same plane as the sleeve(10),and a socket(12)substantially parallel with said transverse portion(7), and in which the sleeve(10) is located on the transverse portion(7), and the pin(11) is located in the slide(9), the sleeve (10) being adapted to rotate about the transverse portion(9), and the pin(11)to rotate in the slide(9),the pin(11) moving along the slide(9) when the stanchion (2)is rotated about its hinge(4), and the socket(12) being adapted to receive the transverse portion(7) when the stanchion(2) is in a fully unfolded position.
